

AERC Membership and Certification Program Fees

Membership Dues

Type		Annual Dues
Individual		\$500
Public Interest		\$500
Associate		\$2,000
Manufacturer	Revenue	Annual Dues
	<=\$2M	\$1,000
	>\$2-\$6M	\$3,000
	>\$6-\$25M	\$7,000
	>\$25-\$75M	\$10,000
	>\$75M	\$15,000

Individual: Individual Membership is available to simulators and other individuals not eligible for Manufacturer, Associate, or Public Interest Membership with experience in the window attachment industry, building energy efficiency, and/or energy ratings.

Public Interest: Public Interest Membership is open to organizations whose purpose is to serve and improve the public welfare, e.g. government and non-for-profit organizations.

Associate: Associate Membership is open to organizations that are not eligible for Manufacturer Membership. This includes but is not limited to associations, calculation entities, testing labs, utilities, and distributors/retailers of window attachments.

Manufacturer: Manufacturer Membership is open to companies that manufacture components, materials, and finished fenestration attachment products. The manufacturer level is based on the company's prior year's revenue from North American business related to window attachment products. If a manufacturer owns a subsidiary company or multiple brands, then the subsidiary and/or brands may be covered under the parent manufacturer's membership, and the organization receives only one vote. A manufacturer that owns a subsidiary company with its own manufacturing location(s) may elect to obtain separate membership for the subsidiary company and therefore a separate vote.

Participation Fees

Participant Type	Fee Type	Member	Non-Member
Accepted Calculation Entity	Annual Participation Fee	\$1,750	\$1,750
Accepted Simulator	Annual Participation Fee	\$1,000	\$1,000
	Training Registration Fee	TBD	TBD
Accepted Independent Inspection Agency	Annual Participation Fee	\$1,000	\$1,000
Type 3 Category Manufacturer Participant (In-Plant Inspection)*	Annual Per-plant Fee†	\$4,300	\$5,500
	Per-sample testing fee	\$970	\$1,300
