

Achieving AERC PRODUCT CERTIFICATION

Follow these steps to get your product certified and listed in AERC's Certified Products Database.

FOLLOW THESE 3 EASY STEPS:

1. START BY SUBMITTING A PARTICIPANT APPLICATION

- Verify that materials are in CGDB or IGDB.
 - If not, contact AERC for approved test laboratories.
- Secondary window/storm window manufacturers: Complete air leakage testing.

2. SIMULATE YOUR PRODUCTS

- Contact AERC for a list of approved simulators.
- Your simulator will use the CGDB/IGDB data and details about your product to simulate its performance in warm & cool climates.
- Review your simulation results and coordinate with simulator as needed to finalize data.
- Your simulator will submit the product listings to the Certified Product Directory.
- Pay the invoice and sign the Authorization Agreement as issued by AERC.

3. YOUR PRODUCT IS NOW LISTED!

- Start marketing your certification using an AERC-provided label and/or certificate.
- Audit and quality manual inspection every other year for continued compliance.
